PROFESSIONAL PROFILE

Computer Science graduate with software engineering internship experience at Nokia. Experienced in Linux debugging, package maintenance and CI build validation using Git and Jenkins. Built Python applications integrating document retrieval, local LLMs and interactive interfaces. Strong foundation in C++, JavaScript and core computer science.

TECHNICAL SKILLS

- Programming: Python, C++, C, JavaScript, Bash, SQL (Basic)
- Software Engineering: Linux, Git, Jenkins, CI/CD, Debugging, Testing, CMake, Meson
- Web Development: React, Node.js, Express.js, MongoDB, REST APIs, HTML, CSS
- AI & ML: scikit-learn, NLP, TF-IDF, Naive Bayes, RAG, Ollama, Streamlit

PROFESSIONAL EXPERIENCE & PROJECTS

Nokia Solutions and Networks India Pvt. Ltd., Bengaluru

Software Engineering Intern | Oct 2025 – Aug 2026

- *Investigated Linux telecom software build failures by tracing source patches, dependencies and build configurations to identify root causes.*
- *Upgraded and security-patched open-source packages, maintained RPM spec files and validated changes through local builds and Jenkins CI pipelines using Git.*
- *Resolved GCC migration compatibility issues using CMake, Meson and shell tools, collaborating with senior engineers and receiving feedback on patches and build validation.*

Smart Doc AI | LLM & RAG

Python, Streamlit, Ollama, scikit-learn

- *Built a document question-answering application with PDF text extraction, chunking and TF-IDF cosine-similarity retrieval to identify relevant passages.*
- *Integrated a local Mistral model through Ollama with a Streamlit interface to answer questions using retrieved document content.*

Fake News Detection | NLP

Python, Scikit-learn, Streamlit

- *Implemented an NLP classification pipeline using TF-IDF and Multinomial Naive Bayes, achieving approximately 91% test accuracy on the project dataset.*
- *Developed a Streamlit interface for interactive, real-time news classification.*

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Dev Bhoomi Uttarakhand University | June 2022 – July 2026

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Artificial Intelligence, Machine Learning

CERTIFICATIONS & ADDITIONAL INFORMATION

- Certifications: AI Infrastructure and Operations; Oracle Cloud Infrastructure 2025 AI Foundations Associate; Microsoft Azure AI Essentials Professional Certificate.
- Awards & Leadership: Trailblazing-20 Award & Scholarship — She for STEM Incubator Program
